## **THE ROAD TO HEALTH . . . *Using The Clark Method Newsletter***

May/June 2006

Number 69

by Bonnie O'Sullivan

Dear Friends,

### **New Product Reverses Sandy's Swelling and Pain**

My daughter, Sandy, is in love with a new product, Denali Tox, because it immediately reversed the swelling and pain in her breasts that she was experiencing since being successfully treated (for removal of dead bone and infected bone marrow) with multiple surgeries and massive amounts of antibiotics for osteomyelitis of the jawbone. Also, Sandy's depression due to still having swelling and pain in her breasts has diminished.

I love it for how it has helped Sandy and because I can get in and out of the car and out of bed feeling no stiffness at all since taking it. (It'll be nice to age without "turning to stone!")

We heard about the product through a subscriber who sent us the following e-mail by John Austin. (Since then John has sent us testimonials that I have added to this newsletter.)

You can read John's e-mail (below) and listen to him on this link:

<http://www.audioacrobat.com/play/WwKnKrys> 4-12-06 Denali Tox (or Denali Green) Presentation with John Austin.

### **Introducing The Product That Does More Than All of The Other Products Put Together**

#### **April 6, 2006 E-mail from John Austin:**

"My name is John Austin and I have been involved in the field of health and nutrition since 1972. Having owned a Health Food Store and being a Certified Nutritionist, I consider myself to be a product person and I am always on the lookout for products that will truly make a difference in people's lives.

"Modern science is producing some remarkable products lately, but I am going to tell you briefly about a single product that I believe does more than all of the other products put together.

"This story begins with a well-known doctor that was born sickly and had poor health all of his life. He experienced several childhood diseases, one of which caused a leg to

become rigid and immobile and he described his condition as walking on a wooden leg most of his life.

“Due to poor health he didn’t get a formal education, but he was a child prodigy and breezed through high school and went on to become a nuclear quantum physicist. Then he took an early retirement at age 59 because he was facing an early death if he didn’t do something about his health.

“Understanding that the body is nothing but atoms and atoms are nothing but energy, he began researching to find what causes the body to age and get diseased. He discovered that atoms become diseased. This was a novel idea to me, but it makes perfect sense.

“The same atoms make up everything in nature, from a rock to a tree, to a human body. It is said that the alchemists could change lead into gold by rearranging the atoms. So if the atoms could be healed, it makes sense that health could be restored to all of the body parts.

“This doctor discovered how to break minerals down 100,000 times smaller than the smallest known mineral making them more bio-available than even minerals from the food we eat. But more importantly than that is the fact that these minerals appear to be the only thing that will repair or strengthen the energy field that makes up the atom. This is extremely important because atoms are the building blocks of the DNA and everything else in our bodies.

“The doctor tested these minerals on himself for three years and upon a number of other people for up to 2 years. All of the participants appeared to be free of all diseases within the first 6 months and the doctor himself gained full mobility of his leg and his eyes which had degenerated quite early (he was wearing trifocals at age 40) have now returned to 20-20 vision and he says his joints are like that of a teenager. The doctor also believes that those who used his product were reversing their biological age about 7 years for every year they were on his product.

“I tell you this story because the minerals this doctor developed are an important part of the product that I am revealing to you.

“About 2 months ago, our first doctor was introduced to a second doctor who discovered this same technology about 18 years ago. This second doctor has since added some other components that takes the mineral product to even a higher level.

“This newer, better product has basically four components. First it contains zeolite, which is a powerful detoxifier. Unlike other detox products that mostly stir up the toxins in the body, zeolite is like a cage that has the ability to consume toxins and trap them inside. Zeolites have an affinity to heavy metals, pesticides, herbicides and other toxic chemicals. Eventually the zeolites are eliminated naturally from the body, carrying the toxins out harmlessly along with them.

“Next we have fulvic and humic acids. These are not really acids. They are natural, mineral rich deposits that were formed millions of years ago from compressed plant life.

“Fulvic acid is the strongest electrolyte known to man and because we are electrical beings, we need electrolytes for cellular communication. Just like a car that runs better when it gets a new set of spark plugs, fulvic acid gives our bodies an electrical tune up.

“Humic acid is famous as a regenerator. It helps the body regenerate bone, cartilage and other broken down, worn out tissues in the body.

“Finally, we have the minerals that are broken down far smaller than anything we have been able to produce in the past. These minerals also help to recharge our electrical batteries and increase the pH of the body.

“We are introducing some new science here and by rolling these four components into one product we are covering a broader spectrum of things that the body can use to heal itself than any one product or group of products previous to this one.

“My personal experience since this product started shipping two weeks ago is nothing short of amazing. I first noticed improved bowel function followed by an extreme boost in natural energy. I have been quite sedentary because of my work for the past several years. I get very little exercise, sunshine or fresh air and yet I feel such a remarkable difference since starting on the product, like I would expect to feel if I were getting all three.

“I have had 7 different people tell me that their wrinkles are already diminishing. (Watch out when the baby boomers hear this!) A chronic case of acne has disappeared in one week. A chronic case of sinus infection is gone after only three days. A couple of people have said they are already losing inches. Pains from injuries and from old age are going away like frost before the sun. One person had cancer and was given just three weeks to live by his doctor. He was nearly comatose; he was flat on his back and couldn't even talk. In five days on the product, he was up out of bed and raking leaves in his yard. In three weeks he was declared cancer free. The excitement is certainly building from the results we are seeing. It is too early to tell for certain, but we think the results are universal. In other words, everybody so far is seeing improvement in one area or another.” —John Austin

## Testimonials

**Number 1:** I am age 17 and I have chronic, severe acne. I have been on the Denali Tox just one week and my acne is all cleared up.

My clothes are fitting more loosely and my mother has lost one pant size, too.  
—Bryanna

**Number 2:** We received our package on Saturday and took 2 drops each time, twice that day. The next morning we took 2 more drops and went on our daily walk in the park. There is a particular hill that we've repeatedly got quite winded before reaching the top prior to learning about the drops. Well, not this day! We were walking and talking and suddenly realized that we had reached the top and we were NOT winded! We check our pulses and was normal, not at all elevated. So we climbed it again and were not winded. Then we reached the largest hill in our area, one that in the past we had to stop and rest a few times before getting to the top. This time we were breathing slightly harder at the top but not enough to hamper conversation, and we never had to stop on the way up. My husband, who is 65 years old, took

those hills like a young man and afterwards could have done more. Our dog that usually runs us ragged was slowing us down! The only thing we did differently was to take the Denali Green. Since that time we have increased up to 4 drops 3x daily. Also, we seem to be youthening. Little eye lines are going away and we just feel younger! —Linda Wolslau

**Number 3:** Before taking the Denali Green, my blood sugar normally tests about 140 in the evening. The first day I took only 1 drop and my sugar level had dropped to 119 at bedtime. I was really amazed because earlier that evening I had gone to my own birthday party and I had eaten some cheesecake and some candy. I expected my blood sugar to be even higher than normal. The next morning I tested 88. I usually test about 120 in the morning and I never get down below 100. —Yvonne Pollock

**Number 4:** I must have had a stroke about a week before Christmas. I was in an extreme state of confusion. I couldn't walk straight. I couldn't get my balance and I bumped into the walls. My son couldn't understand me when I tried to talk.

Before getting the Denali Green I had gotten a lot better, but since then I have improved dramatically. I am now much stronger and I can walk fast without any problems.

I also have a squamous cell carcinoma in my nose and it metastasized to my lower bowels and to my bladder. The first time I took the Denali Green, I could feel it working in my nose and also in my bladder. Normally I have a constant sharp pain in my bladder and it was so bad that I couldn't sleep at night. The pain now comes and goes and is gradually diminishing. It only takes about 10 minutes after taking the Denali Green for the pain to go away for several hours. —Dixie Lee Powell

**Number 5:** I have Diabetes, which has affected my eyes. Prior to using the Denali products, I couldn't read the street signs when I was trying to find an address and I couldn't read the subtitles when watching TV. I had a lot of fatigue and I had to take a nap everyday. I also lived in a constant brain fog. I started using Denali Red, Blue and Green ten days ago. My energy is improving. I no longer have to take a nap everyday. My eyesight is improving, I can now read the subtitles and I have a lot more clarity in my brain. My sense of well being has also improved. —Michael Chapman

**Number 6:** "I was infected by the Hanta Killer Virus from a deer mouse that built a nest in the venting system of my SUV. One morning on my way to work, I turned on the defroster and blew mouse urine and mouse droppings throughout my car. Because this virus is airborne, I could not escape it. I started getting the symptoms, which include headaches, fever, stomach and bowel upsets, muscular aches, breathing distress with overall tiredness. I was very concerned because this virus is extremely deadly and fifty percent of the people who get it eventually die of hemorrhagic fever by drowning in their own body fluids. I told my wife to be prepared to take me to the hospital if I started going downhill rapidly. Given that there is no known cure for this virus, I decided to triple up on the Denali Blue and Green products and trust God for a good result. The next morning I was completely symptom free and continue to be in ever improving health several days later." —PTL, Jim Burns

**Number 7 (April 27, 2006 Update by John Austin):** I first noticed improved bowel function followed by an extreme boost in natural energy. Now after 4 weeks on the products,

my urine flow is increasing which is a blessing for males over 50. While sleeping, my eyelids would become glued to my eyes. This was quite painful and I was becoming quite concerned. I no longer have this problem and my eyesight has improved as well. Last night my five-year-old daughter had a fever. I gave her a few drops before she went to sleep and she woke up rested without any symptoms at all. —John Austin

**Number 8:** I am 78 years old. I have been on the Denali Blue, Red and Tox for two weeks now. My eyes have improved dramatically. I can read now without using my glasses. —Bill Hull

**Number 9:** Most people are noticing a dramatic improvement in their sleep. One child who has been Hyperactive since birth normally goes to sleep at 11 pm. He went to sleep at 6 pm after using Denali Tox just two days.

**Number 10:** My wife who is a cancer survivor normally has a morning pH of 5.5. After 5 days her pH tested at 7.2. —George Lane

**Number 11:** I went to visit my sister-in-law. She had sores inside her mouth. I put six drops of Denali Green under her tongue and the next day she called me and said the sores were all gone. —Julia Ramirez

**Number 12:** I have severe MS with terrible pain and constant constipation. I have to take medication daily to move my bowels. The second day on Denali Blue, Denali Red and Denali Tox, I didn't need any medication to move my bowel. I am on morphine to help cover the pain. I usually take morphine at 6 am, but at 10 am this morning, I am still not needing any morphine. —Shirley Hull

**Number 13:** I have had a horrible time with my knees for over a year. They are painful 24 hours a day, especially if I sit down for a couple of hours or first get up in the morning. They are extremely painful and I have a difficult time straightening them out. I got my Denali Tox just yesterday and took two doses before going to bed. I woke up earlier than usual (5 am) this morning and there was a dramatic reduction in both pain and stiffness. (Three weeks later) I have over a hundred fatty tumors on the backs of my legs and they are all disappearing. —Jackie Archambault

**Number 14:** One day I started to develop a fever blister on my lip. I put one drop of Denali Tox on it and the pain and swelling stopped immediately. The blister was gone the next day.

**Number 15:** At the time that I first received by Denali Green, I was suffering from Plantar Fasciitis. This causes extreme pain in the sole of your foot when walking. After taking 6 drops 3x a day, the pain had reduced noticeably by the first day. Now after just two weeks, the pain is almost totally gone. —Lora Lee Hofmann

**Number 16:** I have suffered from chronic sinus infection and could not get relief no matter what I tried. My sinuses broke loose and started draining after just two applications of Denali Tox. Now after three days, my head is completely clear. —Brettie Griffin

**Number 17:** I have been trying for 3 years to get my pH up to 7.0 or higher. It normally runs about 5.5 and very seldom does it get up into the 6 range. One week on the Denali Tox and I am testing 7.2 first thing in the morning. I normally crave some sugar every day and the Detox has taken away my craving for both food and sugar. Also when I looked in the mirror this morning I thought that my wrinkles were diminishing. —Diana DuBois

**Number 18:** I have been numb on one side for six months. It may have been from a slight stroke. I have been using 6 drops 3x a day for about 2 weeks. The feeling is coming back and the numbness is nearly gone. —Julia Ramirez

**Number 19:** After the hurricane Katrina there were hundreds of cattle dying after drinking the polluted water. A veterinarian diluted some of our Denali Tox and injected it into the jugular vein of 400 cows that were laying flat on their sides. 399 of them lived while all of the cattle on both sides of the fence died.

## Denali Tox

Denali's new product is Denali Tox (short for detox) or Denali Green, which is what the Denali Company is going to rename it soon.

It's a small, one ounce bottle of liquid that has no taste and that you only need to take a drop or 2 of under your tongue 2 or 3 times a day. (A therapeutic dose is 6 drops 3X a day.)

There are 3 Denali products: Denali Blue, an antioxidant liquid, one-quart for \$29.75, Denali Red, Vitamin E, 100 mg., 60 softgels for \$29.75 and Denali Tox (or Denali Green), one ounce for \$59.50.

Denali products are sold by Multi-level Marketing and to order please go to <http://www.bonnie.denalihealth.com/> and click (at top right) on "Join Denali" and use my name, "Bonnie," for your Sponsor's Username. Click Submit and that will take you to the page where you can either "enroll as a preferred customer" or "enroll as a distributor." [Note: When you choose "preferred customer" there is a \$5.95 fee for being a 1<sup>st</sup> time customer plus a shipping charge. You will also automatically be signed up to receive a monthly auto shipment of whatever you order. If you do not want this monthly auto shipment you must call Denali Customer Service at (801) 596-7700 and cancel your auto shipment.]

The cost to become a distributor is \$165 [which is a combination of \$36 to join (and either 2 bottles of Denali Tox at \$59.50 each or another combination of Denali products that equals \$119) plus \$10 shipping]. With your distributorship you are automatically given a Web Site – [www.yourusernamehere.denalihealth.com](http://www.yourusernamehere.denalihealth.com) – and you will receive a monthly auto shipment of \$129 (it defaults to whatever your first order is — or you can change it on line).

To receive commission checks you need to be on a monthly auto ship of \$129 (your choice of products plus shipping). The Denali Customer Service number is: (801) 596-7700.

## Questions and Answers About Denali

**Question #1:** How long has the Denali company been in business?

**Answer:** One of my readers said she became a Denali Distributor over a year ago.

**Question #2:** How long has Denali Tox been in use?

**Answer:** Approximately three years.

**Question #3:** How long has Denali Tox (or Denali Green) been available to the public?

**Answer:** I believe it was made available about the 20th of March 2006.

**Question #4:** I have had trouble with Athlete's Foot for 40 years. If I drink Coke or eat anything sugary it flares up. Is it true that Denali Tox will stop a flare up if I use it topically?

**Answer:** Yes! I've heard several people say they stopped the rash by using drops topically.

**Question #5:** What are the wholesale prices of Denali Blue, Denali Red and Denali Tox?

**Answer:** Denali Blue, an antioxidant liquid, one-quart for \$29.75, Denali Red, Vitamin E, 100 mg., 60 softgels for \$29.75 and Denali Tox (or Denali Green), one ounce for \$59.50. There is a \$5.95 fee for 1<sup>st</sup> time buyers and there is a shipping charge.

## **The Fountain of Youth Discovered**

I am hosting daily conference calls on an awesome new product called Denali Green. Denali means "All In One" and contains electrolytes that are 100,000 times smaller than an angstrom, which is the measurement of light waves! We are talking about returning the atomic structure of the body back to balance. This product turns back the biological clock of the physical body. Literally. Reversing the aging process. Not science fiction but scientific fact. Please pass this on. I am looking for people who have serious physical issues to give this product a try. The stories I am hearing are awesome indeed. People are seeing results very quickly. The calls will be daily at 1 pm Pacific. I will record these calls and email them to anyone on my mailing list who wishes to receive it. 1 pm Pacific — 2 pm Mountain — 3 pm Central — 4 pm Eastern 641-297-7200 pin 532345 M-T-W-TH-F.

Great Love and Abundance! —Grateful Greg
